

## **ANY PROFITS BELONG TO US!**

If you're insured by AAIRRG, you will own a piece of the company. And while future dividends cannot be guaranteed, let me share the following fact with you:

For the past 30 years, the entire aviation line of business in the U.S. has consistently been the first or second most profitable line of liability insurance, producing a better than 50% pretax profit each year!

Imagine not only saving on your insurance, but also profiting from that savings! ***No other aviation insurer is paying a dividend to its policyholders.*** But, as an AAIRRG owner/insured, future profits will come back to you.

I think you'll agree that this is an exciting and sensible option. It's worth taking a few minutes to explore our website to learn more. Then, you can **request a quick, easy and free pricing proposal** to see just how much your shop can save.

We look forward to welcoming you into the fast-growing AAIRRG family.
